
Large Teardrop Banner

Artwork Template

Artwork File Preparation Guide

Sizing: Keep the document dimensions exactly as they are in the template file. Do not change the document size.

Layers: Leave all locked layers untouched. Don’t delete these layers.

Design Placement: Place your creative work on the layer labeled 'My Design' or create a new layer specifically for your artwork.

Finalization: Before saving, you must outline all fonts/text and embed any linked images into the file.

Submission: Save the completed file as a high-quality PDF, then upload it using the "Upload Print File" option on the product order page.

Please Note: Not following these steps accurately may cause delays in the process of your print job.
